Hello

Hope you are doing well

I had some questions regarding the suitability of candidates who go onto do your film related degrees at NIDA.

Would excellent or exceptional grades in subjects like GCSE English Language and Literature (the GCSE exams in the UK, so Grade 9's at GCSE in the UK in these subjects- the highest possible grades) be advisable or highly recommended if you are to pursue degrees in film, film production and/or film analysis at NIDA?

In short, is academic excellence at GCSE level e.g most grades 8-9 (A-A*) highly advised or recommended? Could you give insight based on the academic profiles of those candidates who do gain admission onto your courses?

Do you think being a fan of a film series and analysing it necessarily has any correlation with excelling academically in GCSE English literature or language, which in of itself also correlates with excelling and gaining all grade 8-9's in all of your GCSE's?

Consider the vast majority of fans of famous film series and movies, such as Avatar, How to Train Your Dragon (of which there are potentially hundreds of thousands) and others, who are active online on forums, blogs, fan sites, etc. who analyse their most loved films.

Have they all in the majority also probably excelled academically in English literature and language*, gaining grade 8-9's or their equivalent (which also

correlates with excellence academically overall according to research)

* this also is deterministic of excelling overall at GCSE. Those with grade 9's in English Literature/Language also probably have 9's in Maths, Sciences, Humanities and the other academic subjects.

See the below links for more on the 9-1 GCSE grading system in England

https://www.gov.uk/government/publications/gcse-new-grading-scale-factsheets

The below link highlights candidate performance in GCSE English Literature for the Grade 8, 5, and 2. Note the Grade 9 is a level higher than the ability level at grade 8- an exceptional level of academic ability:

https://www.gov.uk/government/publications/grade-descriptors-for-gcses-graded-9-to-1/grade-descriptors-for-gcses-graded-9-to-1-english-literature

Do you need to be like a grade 9 student to enter and do well on NIDA courses in Film?

Regards

Tom

Hi Tom,

Thank you for contacting NIDA, please have a look at the NIDA website when you have some time as it lists all of our courses that we offer and you can learn more about what courses we teach at NIDA.

https://www.nida.edu.au/study/undergraduate/

If there is a course you are particularly interested in, the **admissions criteria** , **entry requirements**, **recognition of prior learning** and the **selection criteria** are all outlined. We do not have any specific grade criteria or subjects you study at high school. If you are an international student applying please see the link below,

https://www.nida.edu.au/study/students/international-students/

NIDA encourages applications from students from diverse backgrounds, with different levels of experience in theatre, film, television or other areas.

We select students who:

- Demonstrate commitment and motivation in relation to the arts, entertainment and related industries, to their chosen discipline, and to the course of study.
- Provide evidence of their capacity to work creatively and imaginatively.
- Demonstrate an aptitude to collaborate with peers as part of a creative process.
- Demonstrate a range of knowledge, skills, technical abilities and/or problem-solving techniques relevant to their discipline.
- Demonstrate cultural and contextual awareness.
- Articulate and communicate ideas clearly.

Best of luck,

Kylie
